

Purchasing and Service Procurement Policies

At Grupo Piñero we regard our suppliers as key partners in consolidating a responsible business model. We are convinced of the value of maintaining a relationship of trust with the entire value chain, and especially with our suppliers.

Accordingly, at Grupo Piñero we conduct our dialog with suppliers and our process of purchasing and/or contracting services in an impartial, objective and transparent manner, and we are committed to:

- Act ethically, responsibly and within the law.
- Fulfill the commitments acquired with suppliers.
- Use mechanisms that favor reasonable transparency in the management of purchases, especially in negotiations with suppliers and in the decision making process for awarding purchases.
- Avoid any action that could be interpreted as dishonest, including situations of conflicts of interest or situations that generate undue advantages for the company.
- Promote equal opportunities for suppliers participating in a given purchasing process, basing the selection of suppliers, awarding of purchases and decision making on objective criteria.
- Select and approve suppliers that:
 - Meet all legal requirements for their operation and demonstrate sufficient capacity and solvency to comply with the commitments assumed.
 - The products or services are aligned with national or international quality, safety, environmental and efficiency standards established by the company at all times.
 - Guarantee decent working conditions for their employees and act responsibly with their supply chain.
- Raise awareness among suppliers and our employees on the culture of sustainability or responsible management.
- Work, in collaboration with suppliers, to achieve compliance with the sustainability criteria, values and principles established in our Sustainability Policy and Code of Ethics.
- Evaluate compliance with the Minimum Criteria for responsible purchasing and/or contracting of services through internal monitoring and/or independent verification.
- The supplier accepts the possibility that Grupo Piñero may audit the supplier's compliance with the commitments and obligations described above.
